Enjoy hours of fun to be the last crime lord to take control of the city's streets in one of the best open-world crime simulators, Real City Crime Gangster! Become the ultimate criminal boss and take control of the city's streets. Have you ever wanted to be a gangster? It's a very sketchy ambition, but that kind of life has aspects of wish-making that some people might appreciate. Of course, you can't commit crimes in real life. Luckily, you can try it out by playing gangster-level games. Real Gangster Crime is an action game developed and offered by Naxeex Studio. With a game like this, you'll be able to sate your, frankly questionable, desire to commit crimes while remaining within the bounds of the law. Crimes for fun and profitDespite its title, Real Gangster Crime does very little organized crime and instead focuses on the extremely violent side of crime. Your goal in the game is to destroy anyone who comes between you and your rewards. This includes fighting cops, civilians and even other gangsters. Helping you on your dubious mission are the various weapons and vehicles you can use to make your violent streak even more violent. For your reward, you'll get money and items. You can use them to customize your gangster and the cars you steal. There are all kinds of clothing and accessories such as different types of shirts, hats, shades and more. Your car can also be customized to look fresher and snazzier. Presentation and graphicsThe game is definitely looking for a realistic aesthetic, as evidenced by 3D graphics and realistic human proportions. For a mobile game, it's not bad. If you expect graphics with the same level of detail and rendering as popular high-budget triple-A games, this will obviously disappoint you. However, considering the technical limitations of mobile devices, it is rendered quite well. The plots are obvious to viewers and lack the details, but in the end it is acceptable. Sometimes it sounds a bit creepy, however, so keep that in mind when entering this game. Simple in Premise and PresentationReal Gangster Crime has a simple premise and offers that acceptable game. It may not be the best crime simulator out there, but it does the job without too much trouble. It has simple graphics, simple gameplay, and a simple plot to go with it, but sometimes, that's all you really need from your games.
